

International Youth Camp Denmark, 22-29 July 2018

Do you want to find out more about socialism, feminism and environmentalism?

That's what the Fourth International's annual youth camp in Denmark is all about.

In a week with hundreds of young students, workers and campaigners from across Europe and beyond, you'll have the chance to:

- join meetings, workshops, self-organised spaces
- discuss socialism, feminism, anti-racism, LGBTI struggles, climate change, internationalism and the fight against austerity
- make friends, have fun,
- meet leaders of campaigns that rarely make it into the mass media
- talk culture and communication
- socialise, share experiences, debate ideas and plan joint actions

This is a unique opportunity for young activists from Britain to meet with other environmentalists, feminists and socialists. The groups which went to our last couple of gatherings had Labour Party members, RISE and SSP members from Scotland, activists from the National Campaign Against Fees and Cuts (NCAFC), Plan C and the Woodcraft Folk.

Socialist Resistance (SR) will be bringing a delegation from Britain, with groups travelling together from Scotland and from London planned

The camp is organised by young people in the Fourth International, a socialist network which SR supports, and which brings together environmentalists, feminists and socialists in over fifty countries. On this occasion, the camp is actually being organised by the Socialist Youth Front (SUF), a radical youth group in Denmark with a close relationship with the Red-Green Alliance in Denmark. FI supporters in Denmark are active in SUF.
